D. COST BASIS ON NON-COVERED SHARES

- For cost basis calculations on all non-covered shares, those shares purchased PRIOR to January 1, 2012 and subsequently sold, the Selected Funds, when available, will provide realized gains or losses to you using the average cost method.
- You may choose to have the cost basis on your non-covered shares calculated using the cost basis method you are electing for your covered shares. However, the Selected Funds cannot supply you with this data. Please contact Investor Services if you would like to elect this option.
- It is important to note that you are solely responsible for submitting all cost basis data on non-covered shares to the IRS.
